Political Environment – Adequate	Key Strengths & Weaknesses																		
Stable Political and Policy Environment.	<table> <tr> <th colspan="2">Key Strengths & Risks</th></tr> <tr> <th colspan="2">STRENGTHS</th></tr> <tr> <td>+</td><td>Despite high debt to GDP, debt service coverage is strong.</td></tr> <tr> <td>+</td><td>External sector position remains adequate.</td></tr> <tr> <td>+</td><td>GDP growth is supported by CBI inflows, and strong capex (airport, marina, road projects)</td></tr> <tr> <th colspan="2">RISKS</th></tr> <tr> <td>-</td><td>Current high debt to GDP, but fiscal guardrails (rules) imminent.</td></tr> <tr> <td>-</td><td>Weaknesses in the financial sector, particularly the non-bank financial institutions.</td></tr> <tr> <td>-</td><td>Small developing country with significant capacity constraints.</td></tr> </table>	Key Strengths & Risks		STRENGTHS		+	Despite high debt to GDP, debt service coverage is strong.	+	External sector position remains adequate.	+	GDP growth is supported by CBI inflows, and strong capex (airport, marina, road projects)	RISKS		-	Current high debt to GDP, but fiscal guardrails (rules) imminent.	-	Weaknesses in the financial sector, particularly the non-bank financial institutions.	-	Small developing country with significant capacity constraints.
Key Strengths & Risks																			
STRENGTHS																			
+	Despite high debt to GDP, debt service coverage is strong.																		
+	External sector position remains adequate.																		
+	GDP growth is supported by CBI inflows, and strong capex (airport, marina, road projects)																		
RISKS																			
-	Current high debt to GDP, but fiscal guardrails (rules) imminent.																		
-	Weaknesses in the financial sector, particularly the non-bank financial institutions.																		
-	Small developing country with significant capacity constraints.																		
<table> <tr> <th>Indicator</th><th>Best Estimate</th></tr> <tr> <td>Political stability</td><td>Stable</td></tr> <tr> <td>Policy continuity</td><td>High</td></tr> <tr> <td>Governance</td><td>Moderate</td></tr> <tr> <td>Geopolitical risk</td><td>Low</td></tr> </table> Sources: CariCRIS' opinion based on: (1) World Bank Worldwide Governance Indicators, (2) Latest news articles, and (3) Freedom House	Indicator	Best Estimate	Political stability	Stable	Policy continuity	High	Governance	Moderate	Geopolitical risk	Low									
Indicator	Best Estimate																		
Political stability	Stable																		
Policy continuity	High																		
Governance	Moderate																		
Geopolitical risk	Low																		

Overall Assessment: Dominica's credit profile is supported by stable economic growth, strong policy continuity, robust debt-servicing capacity and continued inflows from the Citizenship by Investment programme. However, high public debt, persistent external imbalances, financial sector vulnerabilities and structural capacity constraints remain key challenges to long-term creditworthiness.
